Learn about the documents your family needs for future estate and tax planning, medical decision and financial planning. Learn how to pay for long term medical care and how to **avoid the pitfalls of assuming Medicare will cover long term care costs**. Find out if your family is a good candidate for professional money management so bills are paid on time and assets are protected.

Older adults often end up with an injury or illness that may require hospitalization and/or skilled nursing care. In some cases, **they may be unable to return home unless the proper care is in place** to manage their medical needs.

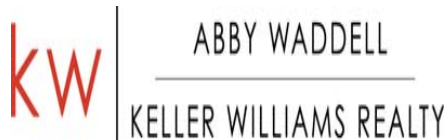

Join this educational event to learn more about in-home care options, choosing the *right* caregiver, how to finance staying in the home or moving into an assisted living facility, getting assistance downsizing and making decisions about moving.
